What is Tourism EXPO Japan (TEJ)?

Tourism EXPO Japan (TEJ) is a comprehensive event that plays a leading role in the global tourism industry. Attracting representatives not only from the tourism industry itself, but from a wide variety of business sectors, it aims to develop domestic, outbound and inbound tourism and to achieve regional revitalization with a focus on tourism. Amid significant changes in values, TEJ presents diversifying forms of tourism and provides an optimal platform for seizing business opportunities.

For two weekdays during the event period, the TEJ is open to business visitors and journalists. Centered on business negotiations, it provides opportunities for gathering information and networking. Participants will share the latest knowledge and hold active discussions on the future of the tourism industry. For two weekend days, the TEJ is open to the general public.
